Everything begins with a feeling. In the silence of the night, as the day's fatigue slowly lifts from your shoulders, you don't simply want to sleep — you want to be renewed, to return to yourself, and to feel a fresh start. Berfa Group bedding collections are designed precisely for this moment. Every mattress in this collection is not just a product, but a unique experience with its own character, soul, and lifestyle.

At first glance, the soft and peaceful textures that feel familiar to you represent tranquility, while designs with stronger, more modern lines carry a bold aesthetic that brings the living spaces of the future into the present. Yet all these designs share a common secret: each is part of a world waiting to be fully discovered.

MATTRESS FEATURES

Knitted Cotton Fabric

Since cotton is a natural fiber, it has a breathable structure. This helps regulate body temperature and reduces sweating, providing a more comfortable sleeping experience.

Cotton fabric has high air permeability. This feature allows air circulation within the mattress system, creating a cool and comfortable sleep environment, especially in warm conditions.

Comfort Foams

Mattress foam systems can be designed in accordance with the anatomical structure of the body. This supports proper spinal alignment, promoting a healthier sleeping posture and helping to reduce back pain.

Foams distribute body weight evenly, minimizing pressure points. This feature helps prevent pain and discomfort in areas exposed to excessive pressure during sleep.

Air circulation layer features

Breathable mattress layers help wick moisture away from the body. They support the absorption and evaporation of moisture caused by perspiration, contributing to a drier and more comfortable sleep experience.

Breathable layers also help reduce the accumulation of dust mites and allergens, creating a healthier sleep environment, especially for individuals sensitive to allergies.

Hercules Spring Systems

Hercules spring systems are generally durable and long-lasting. Made from high-quality steel springs, these systems can ensure that the mattress does not deform over time.

Pocket Spring Systems

Pocket spring systems distribute body weight evenly, reducing pressure points. This can help relieve pain and discomfort in areas such as the lower back, shoulders, and hips.

Rabbit Fur Fabric

Synthetic rabbit fur fabrics have an exceptionally soft touch. Areas that become damp from perspiration during sleep dry quickly. This feature helps keep the mattress clean and dry.

OPTIONAL FEATURES

Natural Tencel Fabric

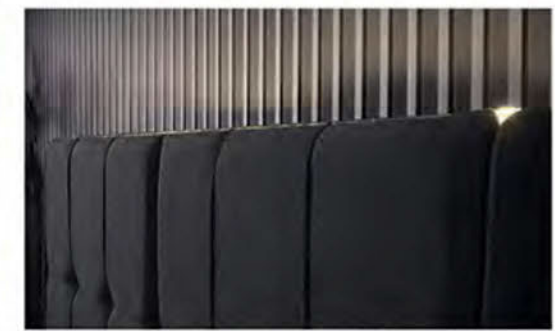

Wireless charging systems integrated into headboards reduce cable clutter within the home and enhance overall organization. This provides a clean environment and a more aesthetic appearance.

Wireless charging systems integrated into headboards reduce cable clutter within the home and enhance overall organization. This provides a clean environment and a more aesthetic appearance.

USB charging ports are widely used solutions for charging various devices. They offer convenient compatibility, allowing devices of different brands and models to be charged easily.

Lighting Systems

LED strip lighting with a slim and flexible design can be easily integrated into headboard surfaces. It is generally used as an atmospheric and decorative light source.

Using multi-layered lighting systems in headboard designs is an effective way to add depth and visual appeal to interiors. Lighting integrated into bed bases and headboards can highlight objects placed on the bed.

The delicate stance in Bade's design, in contrast to the sharp edges of the modern world, brings a peaceful sanctuary identity to your bedroom. The flowing forms of the headboard design interact with light, creating a different visual spectacle at every hour. It is not just a piece of furniture, but a touch that gently soothes the soul of your room.

A bedroom is not merely a place where we sleep; it is the most private space where we leave the day's fatigue at the door and remain alone with ourselves. The Bade Set is designed to transform this space into a true "home" with its warm and embracing presence. The first feeling you experience when you encounter it is a deep sense of belonging and tranquility. The soft transitions and inviting silhouette in its design welcome you to rest the moment you step into the room.

Mattress & Bed Base Sets

BADE

BADE

Bade's character is built on clarity and balance. The flawless proportions between the headboard and the base create a visual rhythm in your bedroom. Free from unnecessary ornamentation, this set presents function and form in their purest state. It is an ideal choice for those who keep pace with contemporary living without compromising on comfort.

Imagine the moment you leave behind the weight of the entire day... The first thing you feel as you lie down on Bade is the silky softness of its rabbit-fur-like fabric. Gently touching your skin, this special surface creates a warm and secure embrace. Softness is not just a sensation—it becomes a ritual of relaxation. The moment your head touches the pillow, your body relaxes, your mind slows down, and you feel comfort begin.

Mattresses

BADE

Beneath the rabbit-fur-like fabric, soft foam layers further enhance this feeling of softness. Adapting to the natural curves of your body, they balance pressure, relieve contact points, and ensure evenly distributed comfort. Neither too firm nor too plush, they provide perfectly balanced support, gently carrying your body throughout the night. These layers form the foundation of a consistently balanced and comfortable sleep experience.

At the heart of Bade lies the strong and durable Hercules spring system. Beneath its softness, it creates a solid balance that supports your spine in the correct position. Adapting to your every movement, this structure combines comfort with durability. The result is not just a mattress, but a reassuring sleep experience that makes you feel renewed every night. Bade brings together the elegance of softness and the confidence of strong support in one mattress.

BUBBLE PRIME

The secret to a good night's sleep lies in naturalness. The Bubble Prime Bed Base and Mattress Set, with its carefully selected cotton fabric surface, maintains temperature balance and creates a skin-friendly sleep environment. The sturdy bed base structure ensures long-lasting use, while the mattress's natural texture gently embraces your body. Designed for those seeking both aesthetic appeal and healthy sleep.

Bubble Prime, with its breathable cotton fabric surface that balances temperature and provides a skin-friendly sleep, also complements your décor with its stylish bed base design.

BUBBLE PRIME

Above this strong foundation lies an innovative cotton knitted fabric. Thanks to its breathable structure, it supports air circulation, while the softness of natural cotton fibers gently touches your skin. The first sensation you feel when you lie down is a perfect blend of naturalness, freshness, and pure comfort. Bubble Prime brings together technology and nature on a single surface, offering not just sleep, but a nightly ritual of renewal.

(cm)	90x190	90x200	100x200	120x200	140x190	140x200	150x200	160x200	180x200

At the heart of Bubble Prime lies a 7-zone pocket spring system designed to understand the anatomy of the body. Each spring works independently, providing targeted support where your body needs it most from shoulders to waist, and from hips to knees. Throughout the night, your movements remain silent, pressure is evenly distributed, and your spine is kept in its natural alignment. In the morning, you don't just wake up you feel rested, refreshed, and balanced. Because proper support is not just comfort; it is quality of life.

Create a bright, calm, and relaxing oasis in your bedroom. The Siena Base and Bed Set blends seamlessly into modern spaces with its elegant design while also bringing an effortless bohemian chic aesthetic. Designed to leave all the fatigue of the day outside the door, this special piece not only offers visual richness but also promises deep and uninterrupted sleep with its body-supporting structure.

(cm)	90x190	90x200	100x200	120x200	140x190	140x200	150x200	160x200	180x200

The meeting point of minimalist elegance and superior comfort: the Siena Base and Bed Set. Transforming the atmosphere of your bedroom with a single touch, this set stands out with its airy and modern details. With a mattress structure that supports your body ergonomics and a durable base designed for long-lasting, reliable use, Siena is created for those who seek both aesthetics and functionality at the same time.

SIENA

Mattresses

The 7-zone pocket spring system used in the Partner mattress is designed with reference to the anatomical structure of the human body. Not every part of the body carries the same weight or pressure; while the shoulder, waist, and hip areas require more support, the head and leg sections need a more balanced level of support. This system provides zone-specific resistance, helping to maintain the spine's natural "S" shape and minimizing pressure caused by improper sleeping positions during the night.

Leave all the fatigue of the day outside the door. The Partner Mattress, with its cloud-like texture and gently body-hugging soft structure, offers you a unique feeling of lightness. If you are looking for comfort that stays away from rigid firmness and fully adapts to the natural flow of your body, you are in the right place.

Designed for those seeking unmatched harmony in sleep, the Partner Mattress invites you to renewal every night with its advanced foam technology and breathable fabric. Combining both aesthetics and functionality, this mattress has been carefully developed to elevate your sleep quality to the next level.

(cm)	90x190	90x200	100x200	120x200	140x190	140x200	150x200	160x200	180x200

VERONA

Verona is not just a sleeping area, but also the strongest complement to your interior design, standing as a timeless style icon that maintains its relevance for years to come. At this point where aesthetics meet functionality and elegance meets comfort, Verona promises you a living space where you wake up with pleasure every day.

Mattress & Bed Base Sets

The flowing lines and geometric harmony in Verona's headboard design create a sense of order and tranquility from the very first moment you enter the room. Every corner reflects masterful craftsmanship where sharp edges meet soft transitions. With its visually calming silhouette, it does not compete with other bedroom furniture but instead achieves a unique harmony with them, enhancing the overall energy of the space.

Inspired by nature, its color palette and simple headboard design create a sense of spacious harmony in the room, while its wide frame structure transforms Verona from a mere bed into a strong lifestyle element positioned at the center of the space. At the core of the concept lies a timeless approach that combines visual simplicity with comfort.

(cm)	90x190	90x200	100x200	120x200	140x190	140x200	150x200	160x200	180x200

LARESSA

Every bedroom has a soul, and every interior has a story to tell. The Laressa Sleep Set goes far beyond being an ordinary piece of furniture; it is designed like a work of art that takes its place at the center of your living space. Blending a modern design language with a classic sense of grandeur, this special collection transforms the energy of the room with its powerful silhouette from the very moment you step into your bedroom.

In your bedroom, a sense of spaciousness and order is just as important as comfort. Beneath its elegant exterior, the Laressa Sleep Set conceals a massive internal storage space that offers a professional solution to your home's storage needs. From seasonal clothing to duvets, from pillows to rarely used items, this generous space allows you to store everything safely, functioning almost like a "second wardrobe" in your room.

	(cm)	90x190	90x200	100x200	120x200	140x190	140x200	150x200	160x200	180x200

VANILLA

Berfa Group's Vanilla Bed, Base and Headboard Set is one of the newest and most distinctive pieces in the Signature Collection. It brings together a contemporary design approach with bohemian touches. Its minimalist philosophy highlights the elegance and functionality of simplicity, while adding a calm and peaceful atmosphere to your bedroom. Vanilla is a collection piece that carries a modern design vision, yet also has a soul in every detail.

The Vanilla set offers a simple yet striking style with its contemporary design. Blending bohemian influences in a modern way, this design carries both naturalness and elegance together. Clean yet strong lines extending from floor to ceiling combine with warm tones and natural textures, transforming your room from a mere bedroom into a true living space. Vanilla merges bohemian style with modern contemporary aesthetics, letting you feel its spirit in every detail.

The Vanilla Bed, Base and Headboard Set offers perfect harmony from every angle. Its cotton fabric, combined with a pocket spring system, creates a superior comfort experience, while its base and headboard design add an elegant touch to your bedroom. This set stands out in Berfa Group's design world, delivering both visual elegance and functional comfort.

Vanilla brings a refined touch to bedrooms with its natural cotton knitted fabric and innovative pocket spring system, while offering a complete harmony with its coordinated base and headboard design. The Vanilla Mattress combines comfort and naturalness through its body-hugging cotton knitted fabric. Its soft texture provides a peaceful sleep experience every night. The natural cotton material is gentle on your skin and remains durable for many years thanks to its strong structure. Vanilla is not only an aesthetic choice but also a health-conscious one: with its breathable structure, it helps regulate body temperature throughout the night, creating an ideal sleep environment.

The handle of the Vanilla Bed symbolizes the power of minimalism. With its simple, elegant lines and sophisticated structure, it adds a modern touch to your bedroom while also offering great functional convenience. Going beyond traditional bed handles, its unique design perfectly complements the bed as a whole.

The Vanilla Mattress is equipped with a pocket spring system that fully adapts to the shape of the body. Each spring moves independently, providing equal support to every part of your body. This system helps relax your muscles while also supporting the maintenance of your sleeping position.

BLACK *Edition*

A bold, boundary-pushing bedroom experience that breaks the rules...

Black Edition blends the noble, mysterious, and powerful presence of black with a contemporary design approach. This exclusive series gives your space a premium identity far from the ordinary, combining the warm, sheltered, and deep atmosphere created by dark tones with flawless sleep comfort.

Designed exclusively for those who defy the ordinary. Black Edition combines clean, modern lines with the captivating depth of dark tones, creating a striking focal point in your bedroom. This bold and distinctive design stance forms a unique contrast and balance with the superior ergonomics and enveloping comfort the bed provides.

PERA

The way you start your day shapes how it continues. The Pera Bed Set is designed to create a bright, airy, and breathable living space in your bedroom instead of a dark and cramped atmosphere. Its pure aesthetic beauty and clean lines spread a positive energy throughout the room, helping to lighten your mood.

The most captivating surprise in Pera's design is the modern LED lighting technology cleverly integrated into the headboard. This special detail allows you to transform the atmosphere of your bedroom with a single touch, creating a soft, low-lit ambience that is easy on the eyes without the need for harsh main lighting in the quietness of the night. Whether you are unwinding with your favorite book after a long day or simply want to soften the room's atmosphere, this elegant glow accompanies you.

The Pera Mattress is designed with firm foam layers to deliver an orthopedic sleeping experience. This structure evenly supports the body, helping to maintain the natural alignment of the spine while ensuring the correct sleeping position is preserved throughout the night.

The strong structure of the Pera Mattress is completed with a durable Hercules spring system and layered foam support technology. Its high-resistance spring construction ensures balanced pressure distribution across the entire mattress, providing adaptive support to different points of the body.

The Pera Mattress creates a fresh and balanced microclimate throughout the night thanks to its special spacer fabric technology used on the surface. This advanced three-dimensional fabric provides high air permeability, helping to maintain continuous air circulation inside the mattress.

As a result, moisture formation is minimized, keeping the surface drier and healthier. The breathable structure of the spacer fabric not only delivers a cool sleeping sensation but also ensures a hygienic sleep environment, making Pera's comfort sustainable throughout the night.

TENCEL

A good sleep begins with a mattress that breathes properly. Tencel creates a unique climate regulation in your bed, completely transforming your sleep quality. Thanks to its natural, plant-based fibers that quickly absorb and release moisture, this remarkable fabric helps maintain an ideal sleeping temperature throughout all four seasons.

Bring the refreshing and calming energy of nature into your bedroom. The miraculous Tencel fabric technology, derived from eucalyptus tree extracts, adds a completely natural and luxurious touch to your sleep comfort. Perfectly suited to the warm, effortless brightness of both modern and bohemian living spaces, this special surface gently wraps your body with its silky softness while breathing effortlessly throughout the night thanks to its exceptional moisture management. Preventing sweating and keeping your skin fresh and cool, Tencel's botanical structure leaves you every morning with a renewed, clean, and smooth feeling, preparing you for the day in the most peaceful way. You are invited to experience sleep where naturalness meets aesthetics and superior comfort.

Zippered  Cover

The Tencel Mattress is designed to provide a hygienic sleep environment thanks to its removable and washable zippered cover. The practical zipper system allows the fabric to be easily removed for cleaning, helping the mattress stay fresh and healthy at all times. Made from natural fibers, the Tencel fabric offers high breathability that supports air circulation and quickly wicks away moisture, keeping the surface dry and comfortable.

With its silky texture and skin-friendly structure, Tencel delivers a soft touch while creating a balanced microclimate throughout the night for a more peaceful and restorative sleep experience.

With its silky softness gently embracing your body, this innovative mattress breathes throughout the night thanks to its exceptional moisture management, preventing sweating and offering you a perfect sleep climate in all four seasons. The Tencel Mattress stands out not only for its skin-friendly natural structure but also for its flawless internal ergonomics, which balance body weight by supporting the spine at ideal points.

Wiping away the entire fatigue of the day with a botanical coolness, it allows you to escape the stress of modern life and feel as if you are resting in the gentle embrace of nature. This special foam-based design is created so that you wake up every morning with a renewed, calm, and smooth energy.

RUBY

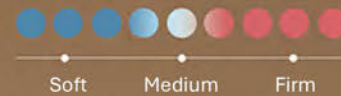

Ruby Mattress offers a balanced sleep foundation that supports human ergonomics with firm foam layers and a durable Hercules spring system. The firm foam layer on the upper section provides the stable support especially needed in the lower back and spine area, helping maintain the natural alignment of the spine. This structure prevents excessive sinking during sleep, creating a more balanced and controlled lying position.

The powerful Hercules spring system in the lower layer ensures uniform pressure distribution across the mattress, offering adaptive support to different areas of the body. When combined, the orthopedic stability of the firm foam and the durable, flexible structure of the Hercules springs deliver a reliable sleep experience that supports the spine throughout the night, helps relax the muscles, and creates healthier sleep ergonomics. It also provides a balanced firmness across the surface, preserving natural body weight distribution and maintaining its shape even with long-term use.

The Luca Mattress is designed through the harmony of three essential elements that support sleep comfort: a 7-zone pocket spring system, soft foam layers, and a cotton knitted fabric surface. The 7-zone pocket spring system provides targeted support to different pressure points of the body, helping maintain the natural alignment of the spine by balancing the needs of each area from shoulders to waist and from hips to legs. This ergonomic support structure keeps the body in the correct position during sleep while ensuring balanced pressure distribution. The soft foam layers placed above the spring system enhance surface comfort, creating a gentle and balanced feel at contact points and delivering a comfortable support experience throughout the night. The cotton knitted fabric used on Luca's top surface supports air circulation with its breathable structure, while the natural softness of cotton fibers creates a fresh and comfortable sleep atmosphere.

OSCAR

MATTRESS FIRMNESS LEVEL

MATTRESS HEIGHT
36cm ± 1cm

The Oscar Mattress provides balanced sleep support by adapting to different pressure points of the body through its 7-zone pocket spring system. Specially optimized for the head, shoulders, waist, hips, and legs, this system helps maintain the natural alignment of the spine. Since each spring operates independently, it flexibly adapts to body movements and contributes to an even distribution of pressure across the mattress surface, resulting in a more stable, comfortable, and ergonomic sleep experience throughout the night.

Complementing Oscar's comfort, the soft foam layers create a gentle and balanced surface feel, enhancing overall sleep comfort. These layers softly adapt to body contact points, providing a more pleasant sleeping surface and helping to balance any sense of firmness during rest.

NEON

The rich quilting that reflects Berfa Group's refined aesthetic vision brings together art and functionality in its designs. Carefully crafted in every stitch, these special details not only offer a visual delight but also enhance the strength and durability of the set. The quilted elements add depth and movement to the surface of the designs, introducing a luxurious touch to our bedrooms.

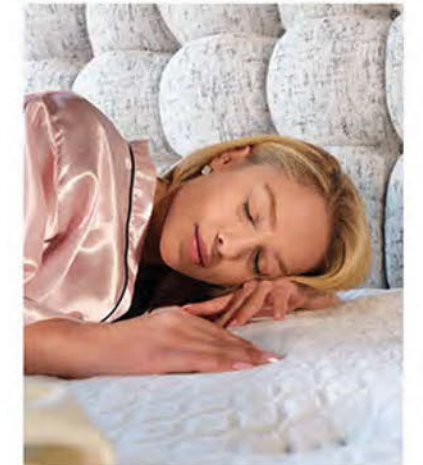

This richly padded quilting work especially highlights the softness and comfort of the designs. Beyond its visual elegance, this fullness provides a structure that enhances user comfort.

Flawless craftsmanship is felt in every detail of Berfa Group's products. Every stitch, every fabric selection, and every filling material is brought together with great precision. This care ensures that the products are not only aesthetically refined but also long-lasting. Modern techniques used in the quilting details allow patterns to be distributed evenly, achieving visual harmony across the surface. Each motif is designed with perfect symmetry, giving the product an aesthetic balance in its overall structure. This is not just a design detail, but also a reflection of a commitment to quality.

One of Berfa Group's unique designs, the Neon Mattress, is carefully crafted to deliver an uninterrupted sleep experience. With its soft rabbit-fur-like fabric and padded structure, this mattress perfectly adapts to your body during sleep, making you feel as if you are floating on clouds.

NEON

The luxurious touch of the rabbit-fur-like fabric works in perfect harmony with the overall structure of the mattress, ensuring comfort throughout the night. The high-density foam takes comfort one step further. By evenly distributing body weight and supporting the spine, it helps you wake up feeling light and well-rested.

The design of the Neon Set's base and headboard elevates your sense of aesthetics to a higher level. With its rich quilted details, the base and headboard offer a modern and striking appearance, adding a sophisticated atmosphere to your bedroom. These eye-catching elements not only provide visual appeal but also become the focal point of the room. The high metal legs are another important feature that enhances functionality. They make cleaning easier while ensuring long-term durability against deformation, maintaining their strength for years.

The Neon Mattress stands out not only with its surface features but also with its internal bonnell spring system. Thanks to its strong and durable structure, this system ensures long-lasting use while evenly distributing pressure and supporting your body's natural contours during sleep.

One of Berfa Group's unique designs, the Neon Set elevates your sleep experience with its softness and comfort-focused structure. The high-density foam used in the mattress core supports your body, helping you maintain an ideal sleeping position throughout the night.

PIANO

The Piano Model, which perfectly reflects Berfa Group's contemporary design philosophy, brings art and elegance into bedrooms through its headboard design. Inspired by piano keys, this unique headboard offers a timeless aesthetic with its modern lines and sophisticated details. Carefully considered in every aspect, this design brings the harmony of music into living spaces, creating a peaceful atmosphere.

The Piano Model is not only visually impressive but also highly functional. The fluid transitions of clean lines and the balanced combination of different forms add depth to the design, making it the focal point of the bedroom. Blended with a modern, minimalist, and contemporary style approach, this design adapts seamlessly to any décor style while refreshing the spirit of your bedroom.

The Silver Wings Mattress is designed with high-density foam that places comfort at its core, combined with a Hercules spring system that brings together durability and flexibility. The high-density foam offers exceptional softness that supports your body, while the Hercules spring system balances pressure by preserving the natural curves of your spine. This special combination ensures all the comfort needed for an uninterrupted sleep experience.

The mattress's innovative surface design is detailed with modern lines and shaped by a contemporary aesthetic approach. Merging with advanced technologies, this design supports your body ideally during sleep and helps you start each new day feeling refreshed. The premium materials used on the surface are skin-friendly and breathable, providing optimal comfort throughout the night.

NORA

The Nora Headboard stands out with its delicately designed oval lines. Its flowing contours and soft transitions give the design both a dynamic and calming appearance. The balance created by these curves transforms the headboard from a simple decorative element into a feature that reshapes the entire atmosphere of your bedroom.

The elegant quilted details add depth and a sophisticated touch to the Nora Headboard, while its refined structure creates a sense of lightness, bringing a spacious feel to the room. This headboard is an ideal choice for those who embrace a clean aesthetic, and with its timeless presence, it maintains its relevance for years. Brought to life with Berfa Group's exceptional craftsmanship, the Nora Headboard is a perfect choice in terms of both aesthetics and functionality.

ZEYN

The Zeyn Headboard, a special design by Berfa Group that brings together simplicity and elegance, stands out as one of the finest representatives of minimalist style. With its slim structure reflecting the elegance of simplicity, this headboard blends seamlessly with any décor style through its subtle yet striking details.

The design of the Zeyn Headboard reflects the most refined form of minimalism. Stripped of unnecessary details and focused on timeless aesthetics and functionality, it brings a calm elegance to living spaces. Its clean lines and simple form add a modern touch to the room, while its subtle details make the design truly distinctive.

The premium materials used on the surface are skin-friendly and breathable, delivering optimal comfort throughout the night.

ASTANA

The LED lighting system integrated into the headboard allows users to create a personalized atmosphere in the bedroom. By emitting a soft glow, it provides a comfortable environment while enhancing the overall ambiance of the room. In addition, the built-in USB charging feature is designed to meet the needs of modern living. This detail allows you to easily charge your smart devices, making daily life more practical.

In the design of the Astana Headboard, luxurious details are combined with modern lines. Its tall and striking structure gives the headboard a sophisticated presence, while the finely crafted details create a flawless visual experience. However, Astana aims not only to impress with its elegance but also to enhance quality of life through its innovative features.

Reflecting the perfect harmony of aesthetics and functionality, the Astana Headboard once again showcases Berfa Group's commitment to quality and innovation. With its majestic presence, advanced technologies, and practical features, this design is not just a headboard—it offers a unique experience that adds real value to your living space.

The cotton fabric used in Berfa Group mattresses is designed to transform your sleep experience into natural comfort. With its breathable structure and moisture-absorbing properties, cotton keeps the body dry and cool throughout the night, eliminating sweating and discomfort during sleep.

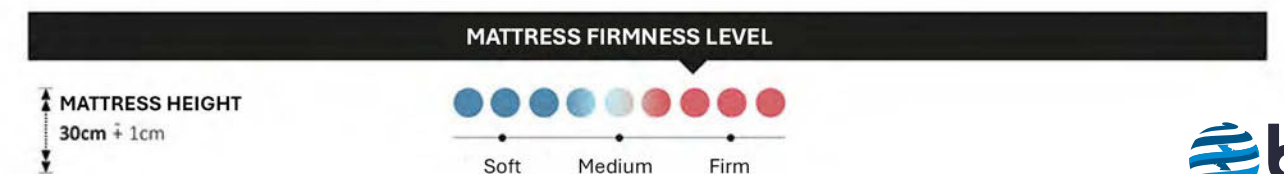

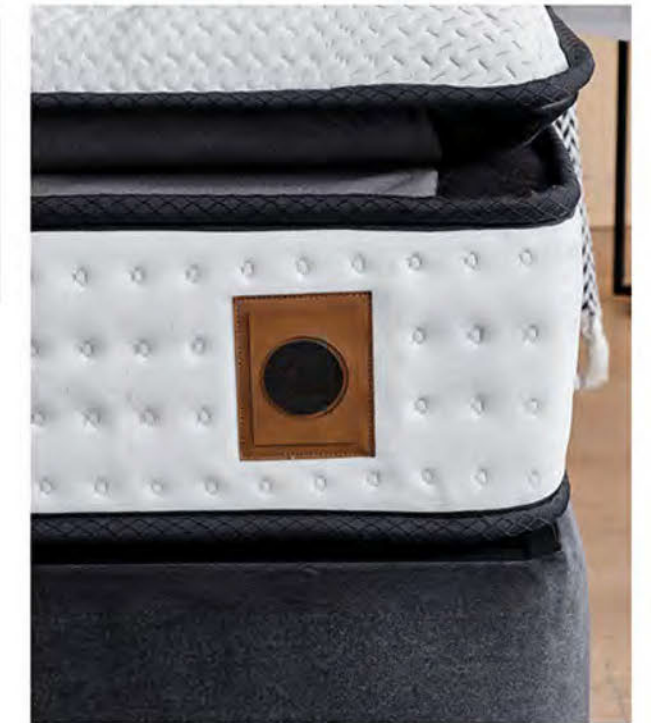

The soft texture of cotton adapts perfectly to your skin, minimizing friction that could interfere with your rest. This natural material not only relaxes the body but also enhances sleep quality, helping you enjoy a peaceful and healthy night. Mattresses covered with cotton fabric maintain a natural temperature balance, providing the comfort your body needs.

High-density soft foam is one of the fundamental elements of Berfa Group mattresses and elevates comfort to a new level. This special foam adapts perfectly to every part of the body, creates an ideal pressure balance, and delivers a deep sense of relaxation every time you lie down.

Soft foam provides a gentle, comfortable feel while its high-density structure ensures long-lasting support. The comfort it distributes across the body during sleep is essential for a relaxing and peaceful night, allowing the body to fully unwind throughout the night.

The Hercules spring system offers excellent support for your sleep health. It properly supports every part of your body while helping to maintain the natural alignment of the spine. The flexibility of the Hercules springs provides customized support for different areas of the body.

Mattress & Bed Base Sets

The Nirvana Base adds a modern touch to your room with its clean lines and refined details. Its sturdy structure ensures long-lasting use, while its minimalist design complements the overall aesthetic of your space.

Special Collection

Berfa Group's Special Collection brings a whole new dimension to your bedrooms with its exclusive designs that combine elegance and comfort. Featuring refined aesthetics and superior quality in every detail, this collection is created not only to enhance your living spaces but also to perfect your sleep experience. The Berfa Group Special Collection is not just furniture—it is a work of art that reflects your lifestyle.

This exclusive collection offers unique pieces that adapt to any décor by combining modern lines with timeless designs. From expansive headboard styles to sophisticated fabric details, each product is carefully crafted for those who seek both luxury and functionality. Berfa Group prioritizes not only aesthetics but also your health and comfort. Special Collection products are equipped with innovative technologies that support your body during sleep.

Enhanced comfort foams, advanced spring systems, and premium fabrics elevate your comfort while taking care of your well-being. The Berfa Group Special Collection also features customizable details that highlight your individual needs and style. Each piece allows you to transform your bedroom according to your personal taste. With exclusive fabric options, innovative lighting solutions, and functional designs, the collection appeals to every preference.

LINE

LINE

The Line Base model by Berfa Group brings a minimalist design approach to your bedroom with its simple and elegant lines. Its visually soothing aesthetic details combine with a contemporary look, making this model stand out with both its design and functionality. With various color options that adapt to every style and décor, the Line Base adds a refined touch to your living spaces.

The innovative air capsules used in this model ensure excellent air circulation within the mattress, maximizing your sleep comfort. The fixed padded structure of the mattress offers both durability and comfort even with long-term use. Thanks to the air capsules, moisture formation is prevented, keeping your mattress more hygienic and fresh.

The enhanced springs used in the layers of the Magic Mattress adapt instantly to the human body, helping to maintain the natural alignment of the spine. In this way, they contribute to preventing mattress-related lower back and back pain.

Bonnell springs are generally firmer compared to other spring systems. In this system, springs made of steel wires provide support to the human body according to body weight. In this way, they help maintain the natural alignment of the spine.

Choosing the right mattress is very important for spinal health. A firm mattress or a soft mattress does not necessarily mean a correct choice. Therefore, when purchasing a mattress, it is essential to test it and select the most suitable one according to your own body type.

Mattress & Bed Base Sets

LINE

Berfa Group's Line Single Base and Mattress, designed with refined taste, is a perfect choice for those who want to make a big impact in small spaces. Combining minimalist lines, innovative technologies, and elegance, this special model is designed to suit both youth rooms and guest bedrooms.

BURÇAK

Designed with Berfa Group's elegant and comfort-focused approach, the Burçak Sleep Set combines natural materials with modern technology to offer you a unique sleep experience. With its soft texture and functional design, this special set transforms your bedroom into a haven of peace, created to elevate your sleep comfort to the highest level.

The mattress of the Burçak Sleep Set offers natural softness thanks to its skin-friendly cotton knitted fabric. This breathable material keeps your skin comfortable while providing a fresh sleeping experience throughout the night. It is a perfect choice for those seeking both comfort and naturalness.

Special comfort foams used in the mattress provide ideal support for your body during sleep. These layers help maintain proper spinal alignment, reduce fatigue, and allow you to wake up feeling refreshed in the morning. Air capsules inside the mattress ensure continuous air circulation, keeping your bed fresh. This feature prevents moisture and unpleasant odors, making the mattress more hygienic and healthy. Even with long-term use, the Burçak Sleep Set maintains its comfort and freshness, taking your sleep experience to a whole new level.

This special design, inspired by the soothing, moisturizing, and renewing properties of the miraculous plant it is named after, combines these benefits with innovative sleep technology to offer your body a natural therapy every night. The specially developed Aloe Vera infused surface fabric gently touches your skin with a silky softness, while its refreshing natural effect helps you fall asleep more easily and enjoy deeper rest. With its breathable structure that perfectly reflects the calm, organic atmosphere sought in both modern and bohemian living spaces, it enhances your sleep experience.

By balancing your sleep climate, it creates a fresh, clean, and healthy sanctuary for you in every season. Its advanced internal support system gently cradles your spine in an ideal position, relieving the entire fatigue of the day. Meanwhile, thanks to the skin-friendly and refreshing touch of Aloe Vera, you wake up not only well-rested but also with your skin feeling renewed, purified, and glowing with health. Discover this healing harmony of naturalness and superior comfort.
