Sleep health is **key to wellbeing!**

Apart from daily comfort, Healthy pillows are an important part of medical health aids. An ideal choice for illness and disorders that require extra comfort like hemorrhoids, acid reflux disorder, decubitus and various rheumatic diseases.

Sleeping and sitting in the wrong position may exert extra pressure and pain on your spine. Improve your health with Healthy medical products.

By supporting the small of your back and helping to keep your spine in correct posture, Healthy medical pillows provide a healthier sleep, and prevent the progression of diseases like arthritis, herniated disc, hemorrhoids and the requirement of medical foot support tools.

Lay your head **on a restorative pillow...**

AirComfort pillow maximizes your sleep comfort thanks to the latex like effect created by its evenly perforated structure. AirComfort regulates heat and moisture perfectly by providing 5 times more air circulation than regular pillows.

Thanks to its Visco feature, AirComfort pillow minimizes pressure to the head and neck region helping to regulate blood circulation.

The perforated structure of AirComfort pillow provides extra softness while the free air flow circulation can be easily felt. These features help prevent sleep apnea caused by sleeping in the wrong position.
